Cavriago (RE), July 10, 2024 - Landi Renzo ("the Company") announces that it has received the support of banks for the rescheduling of the medium-and-long-term financing agreements, in the context of a capital strengthening operation that provides for the entry of Fondo salvaguardia imprese, promoted by the Ministry of Enterprises and Made in Italy (MIMIT) and managed by Invitalia, the National Agency for Development, into the shareholding structure of Landi Renzo. The entry will take place through a reserved share capital increase amounting to €20 million, promoted together with a further capital increase under option for a total of €25 million, which is guaranteed up to €20 million by the majority shareholder Green by Definition.

These interventions on the capital structure, scheduled for the fourth quarter, will be examined by the Company's Board of Directors during July 2024.

Against this background, Landi Renzo informs that it has received a communication from Invitalia regarding the approval of its Board of Directors of the investment in Landi Renzo. Said investment is subject to some suspensive conditions, including the favourable outcome of the required ministerial authorisations and the finalisation of the contractual documentation relating to the overall financial manoeuvre.

Landi Renzo also announces that it has received adhesion from the banks that contracted the pool financing (Banco BPM S.p.A., Intesa Sanpaolo S.p.A. and UniCredit S.p.A.) to the proposal of financial and capital optimisation intervention.

All the above-mentioned credit institutions and underwriters of the loan agreements have indeed approved the extension of credit lines maturities, confirmed the existing economic conditions and also agreed on the definition of new covenant levels.

Furthermore, the definition activities of the contract texts with the aforementioned banks are currently underway, whose effectiveness will be subject, in addition to Invitalia's implementation of the intervention, to the execution of the capital increases.
